

# The Franklin

made a perfect score in the Endurance Race around the Island. It only used 4-5 gallons of gasoline and a half a pint of oil. It did not have to bother about water at all, as it is an AIR-COOLED CAR. Being an Air-Cooled car it is a light car.

Unnecessary weight means loss of power. Repair bills. Gasoline bills. Tire expense. Awkwardness. Discomfort. Danger.

Every pound of superfluous weight means more work for your engine to do. Your horse-power doesn't do so much—less speed, slower work on the hills. What's the use of buying high horse-power and throwing it away on weight?

A heavy, complicated, water-cooled engine has more to get out of order than an air-cooled engine—That Means More Repair-Bills. A heavy automobile injures itself by jarring. That Means More Repair-Bills. A heavy automobile wears out tires fast—Still More Expense. A heavy automobile is hard to manage—That Means Danger.

There is no comfort possible, under average touring conditions, with a heavy stiff-frame half-spring machine.

We have just received a Model D 1908 Franklin Touring Car and it you are looking for a light, powerful, elegant car, this is the one you want.

Let us give you a demonstration. Our Model G car just at hand has been sold, but we have more G Touring and G Runabouts on the way and can show them to you in a few weeks.

## RACING RAGS FOR HAWAII

Eight hundred and ten dollars worth of sails for the yacht Hawaii arrived here on the boat that came down from the Coast yesterday. These have been ordered for some time, and were made by an expert in the States. They are the racing rags, and will be prepared soon so that no trouble will be experienced fitting them on the yacht when the time comes. The hollow wood masts are expected here soon—in fact, after the other day that he looked for them on every steamer.

The following are the names of the various racing sails which will carry the yacht along sailing in the run across the Pacific: Fore and main sails, jib, staysail, squaresail, main topsail, foremast's staysail, baby jib, and raffles. The Hawaii will not have a spinnaker.

Builder Alex Lyle is wrapped up in the vessel he is building. He says that she will undoubtedly be the finest craft of her kind and class that ever floated in Honolulu harbor. Her fittings are magnificent, all of the inner fixtures being constructed of Hawaiian koa wood, which takes a beautiful polish. The other day three Hawaiians came up to Alex, and each of them gave him \$20 to go towards the yacht. They were pleased to do it. They wanted an interest in the boat that was going to race across the Pacific. They wanted to feel that they had a personal interest in her, that they owned a part of her. These fellows are the right kind of sportsmen. They feel that the simple fact of their owning a share in the boat will undoubtedly push it on to victory.

## LINDSAY TACKLES WATER CONTROVERSY

McBryde-Koloa Troubles Come Up On Bill Of Exceptions

The McBryde-Koloa water controversy was taken up by Judge Lindsay this morning, the matter coming up on the injunction proceedings brought by McBryde plantation last week.

W. A. Kinney appeared for McBryde plantation and Frank Thompson for Koloa. Thompson had filed a bill of exceptions to the complaint, and announced his intention. If these were overruled, of filing a demurrer, or other answer. Kinney objected to this, arguing that Thompson ought to file all his pleas, demurrers, answers, etc., at once and have them all taken up at the same time. Judge Lindsay overruled the objection and announced that he would hear argument on the exceptions. These were argued and overruled. Thompson then entered a demurrer, which was taken up for argument.

The Soo Kwai Yin case was concluded yesterday before Commissioner Hatch, so far as the taking of evidence was concerned. Hatch took the case under advisement.

## BOARD OF EDUCATION HOLDS SHORT MEETING

The Board of Education held a meeting yesterday afternoon, Commissioner William Williamson presiding in place of Superintendent Habbit who has gone East.

A number of complaints against various teachers were discussed and several of them were disposed of, others going over until some later meeting.

The complaints made against the McGregors, teachers at Hauula school, was found by Commissioner Carlin, who investigated the matter, to be nothing more than a dispute over water rights, and the matter was dropped.

W. W. Taylor, principal at Kihuna, is involved in a row with Levi Joseph. Taylor complained that two boys, John Hu and Ah Moon, had entered his cottage and stolen some money. They were arrested and confessed their guilt, but later, on advice of Joseph, withdrew the plea and retained Joseph to defend them.

Lo Sun, the Chinese editor whom the Federal authorities are trying to de-

## TATE WILL BE \$500 ON SWITZER

"Kid" Tate, the former lightweight fighter, now running a little picture game to crowded houses here in Honolulu, has blossomed out as a promoter of the wrestling game here. He has taken Hans Froelcher, the Switzer who came down here expecting to get a match with the Jap champion with the unpronounceable name, under his sheltering wing, and now comes out with a great big \$500 challenge to any wrestler in the islands. Tate says that he will back Hans for this amount or put it up as a forfeit and double the amount if he gets a call.

"I am anxious to get a match here in the islands for Froelcher," said Tate, the other day. "I think he is about the real candy in this strong-arm business, and as a proof of my belief in him, I will back him for \$500 any time against any wrestler in the islands. I do not know whether or not there are any local champions, but I think there should be, for the Hawaiians, as a rule, are splendidly built, and have strong physiques. Then, of course, there are the Jap wrestlers,—but I do not believe there are any sons of Nippon in Hawaii who would have a look-in with Hans. He has tossed Tom Jenkins around on the mat and Farmer Burns felt that he was being man-handled when he tackled Froelcher. Remember, I have that \$500 plunk ready to back the Switzer any time."

May Sutton will probably go East this summer to recapture the American lawn tennis championship.

## TO DISCUSS PLANS FOR NAVY BOYS

Secy. Mott-Smith Calls Mass Meeting to Talk Entertainment

A notice was issued from the Governor's office this morning, signed with the name of Secretary Mott-Smith, calling a mass meeting for March 4 at the rooms of the Chamber of Commerce, to discuss plans for the entertainment of the fleet.

Governor Peary says that, of course, something must be done, and he thinks it advisable to begin early, so that everything may not be left for the last hour. The meeting is called principally to give those who may have ideas as to what should be done an opportunity to make suggestions.

A number of Chinese have of late been making complaints that their wives had been enticed away from them by unscrupulous fellow countrymen, and the Chinese Consul has taken the matter up. He has complained to both the police and the Federal authorities, who will now work together to secure evidence and bring the offenders before justice under the Edmunds Act.

Miss Louise Pihl, teacher at the Puukalani school, was transferred to Kapa to take the place vacated by Mrs. Neal. A formal offer of the Kapa school was made to Miss McCarriston. The name of Mrs. Keawe was presented for appointment to the Paia school and was favorably considered, but no action was taken in the matter.

Miss Kawahuli, teacher at Waiwala, was granted a leave of absence for 60 days, Miss Nicholson being named as substitute to fill her place. Miss Whitington, of Kekaha, Kauai, was also granted a leave of absence. Her place will be taken by Miss Farnath.

Complaint came from Kukuiahae that J. de Silva, the teacher there, is too free in his use of the rod. The resolution providing for the transfer to the Territory of the Lahaina school lands was adopted.

## SENSATION PROMISED IN BASEBALL CONTEST SUNDAY

The championship game in the Kahanalano Baseball League between the Chinese A. C. and Kaalas to be played next Sunday at Aala Park will probably furnish an entirely new sensation in baseball circles.

The prospects of a faster game is most promising, as it may be the deciding game, if the Kaalas should win, but the sons of the flowery kingdom have not so far lost confidence, and will unquestionably give their opponents a hard rub. Their chances of carrying away the laurels will be as good as the Kaalas, should they win from them next Sunday, in which event they will be tied, which will cause the final game of the schedule to be played to decide the championship for the season of 1907.

Captain Chi Hui Mark of the C. A. C. expressed his regrets over the game played last Sunday, but as the baseball fans know him to be a true-blue sportsman, and untiring in his efforts they realize that errors are sometimes unavoidable and will no doubt bear with him in the unfortunate mishaps that crippled his team. It is expected that by Sunday all of the members of the team will be in good condition.
